FROM DESENZANO TO THE ROCCA OF MANERBA

A tour **suited for everyone** that leads to the **Rocca of Manerba** along secondary, little-trodden roads alternating with gravel roads and/or paths in the Valtènesi.

The Rocca is located about halfway along the route and is a **suggestive panoramic viewpoint** over the whole of Lake Garda. On clear days, in fact, the northern end of the lake can be seen. The route does not present any particular difficulties except for the final ascent to the Rocca, which can also be tackled by the less experienced on foot, leaving the e-Bikes in the car park below. The route also passes by the **castles** and relative villages of **Moniga and Padenghe**. On the route it is also possible, by prior arrangement, to visit an olive oil mill in Soiano or to add a tasting in a wine cellar.

Duration: 3 hours (excluding any tasting breaks)

Distance: **40Km**

Difficulty: Medium

Extra **tasting cost 30€**

OUTDOOR TOUR

This tour along gravel and/or asphalt roads is designed to visit one of **the most beautiful villages in Italy**, Castellaro Lagusello. It winds through the territory of the Colline Moreniche (Morainic Hills), where time passes more slowly than on the lake, to enjoy a day that refreshes body and spirit. On the route you will naturally also pass by the **Torre di San Martino** and Pozzolengo. Farms in the area keep traditions and cultivation alive, starting with wine production of course, then orchards, cultivation of medicinal herbs, apiaries, etc., you can also find a farm that grows and produces saffron.

Duration: 4h (excluding any tasting breaks)
Distance: **35Km**
Difficulty: Medium
Extra **tasting cost 30€**

CASTLES TOUR

The **Valtènesi** is rich in history. Each village preserves indelible traces of the past, and the witnesses that most help to remember it are the monuments and buildings that have come down to us. **The castles**, in particular, stand out for their **scenic and strategic points**, also because of their beauty and the preservation with which they have come down to us. The tour along dirt and/or asphalted roads takes us to the castles and relative villages of **Desenzano** to **Polpenazze** and back via **Moniga, Padenghe, Soiano** and Drugolo.

Duration: 3½ hours

Distance: 35Km

Difficulty: Medium

Extra tasting cost 30€
